LICEUL TEORETIC "AUREL LAZAR"

ORADEA, ROMANIA

"Aurel Lazar" Secondary School is an educational institution with 37 teachers in the center of Oradea. The students (more than 500) aged 10-18 are disposed on two levels: lower secondary and upper secondary.

The school provides good learning facilities for the students and organizes a range of extra-curricular activities. Some of the missions of our institution are to shape cooperative, understanding, active students and staff with a knowledge of European realities; to provide students with abilities to be competitive and sustainable in a permanent changing Europe and to uncover their capacity to manage great works of self and team.

The school board strongly supports the international activity. By strengthening the European dimension of the institution, the students can be more easily equipped with social, civic, language competences in order to be successful in life and have a proper behavior when in contact with diversity. Diversity and equal opportunity are strongly interconnected as equal opportunity represents freedom from discrimination based on race, nationality, culture/ethnicity/subculture, gender, class (or wealth/poverty), age (especially extreme youth or age), (dis)ability, sexual preference, religion, political party. Our school is guided according to the principles of acceptance, dignity, and respect for diversity.

The school policies are intended: to create a positive school culture that is fair and respectful; to expect positive, supportive, and respectful relationships that are inclusive and value diversity. We have in view to provide our students with the opportunity to succeed, and to reach the highest level of personal achievement in a human environment whose main feature is diversity by fully respecting the right of all those who are "different".
