GO! ATHENEUM CENTRUM OOSTENDE

KONINKLIJK ATHENEUM CENTRUM OOSTENDE

Royal Atheneum Centrum Ostend is a secondary school in general education, in the heart of Ostend. Students are following general education in different streams from 12 till 18 years old: sciences, math, languages, modern languages, and Latin; economics, social & cultural studies.

We see it as important to offer education to all students. Therefor the school keeps school fees low, has a very open a democratic structure and does special efforts in coaching and caring for students. Many students get individual extra-coaching on learning problems and because of psychological problems or social deprivation. Our population is becoming more and more multicultural, since recently more than 120 nationalities are living in Ostend.

They offer different social and economic backgrounds to us. We strive for equal chances and opportunities for all students and help them becoming adult. Tolerance and respect are very important values. Even so for critical thinking and innovations in methods and contents.
